

3" Addition #FM-70 RFGT Digiview End Former with Wide Vise

Addition/Addison CNC tube end forming & flaring machine

Model: FM-70 RFGT DIGIVIEW

Capabilities:

- "Rotating head with hydraulic out feed cylinder to feed the tool out into the tube creating the desired bead/flare/etc. while the workpiece is clamped in a hydraulic vise" -
- High production beading, flaring and tube trimming -
- Expanding & ball forming -
- Flanging & parting -
- Includes:

- **Stock Number:** AM20803
- **Brand:** Addison McKee
- **Capacity:** 3 inches

- Touchscreen Machine mounted operator controls
- Servo head infeed
- Servo outfeed on spindle for accurate forming
- Two-hand cycle start pedestal
- Allen Bradley Electrics
- Rexroth Servo valves
- Fully integrated hydraulics and valving
- Sliding vise for convenient part loading
